WORK EXPERIENCE

Lead Scrum Master

Sopra Steria Group

Project e-GMAO (JAVA/ANGULAR Web Application)

July 2021 – July 2022

- **Led and coached** two development teams, enhancing team maturity and autonomy through improved workflows (Code Review, Pair Programming, DoR, DoD).
- **Refined Scrum processes** to boost communication and implemented Klaxoon dashboards for better project visibility.
- **Mentored a junior Scrum Master** and facilitated a transition to Kanban, increasing productivity during team downsizing.

Scrum Master

Project CNM (JAVA/ANGULAR Web Application)

Mar 2020 – July 2021

- **Managed planning** and delivery and **coached** a 5-member team, meeting tight deadlines and increasing velocity by 70%.
- **Enhanced PBI quality** and prioritization, improving team alignment and decision-making.
- **Guided a junior Product Owner** to refine PBI structure and prioritization for better stakeholder alignment.

Frontend Developer

Project REXEL (PHP Web Application)

Apr 2019 – Mar 2020

- **Refactored a legacy PHP** application within a 3-member team, integrating Symfony to boost maintainability, security, and scalability.
- **Led** knowledge transfer with former team members and implemented features to boost project efficiency.

PERSONAL PROJECT

The Scrum Nomad (React/GSAP Web Application)

Sept 2022 - present

- **Created "The Scrum Nomad"** to deepen Agile expertise and technical understanding, enhancing my role as a Scrum Master.
- **Explored innovative Agile practices**, producing educational content that boosted my skills in coaching and project management.
- **Applied advanced front-end techniques** and creative solutions, reinforcing expertise in modern web development.
